Summary

HobbyHash Coin is a SHA256 mineable coin focused on home solo miners, transparent mining stats, public node operation, and user-friendly wallet infrastructure.

Preferred Trading Pairs

- HOBC/BTC and HOBC/DOGE (primary). Optional HOBC/USDT.

Exchange Integration

- Native UTXO asset; public explorer; node + wallet downloads; published checksums and docs.

Positioning

- Home miner and solo-mining focus; SHA256 accessible participation; utility/network operations language.

Risk / Compliance

HOBC is not promoted with profit guarantees. Exchanges and users should evaluate software, network, liquidity, and

documentation independently.
